

United States Department of Agriculture

AUG 4 2015

Office of the Secretary
Washington, D.C. 20250

The Honorable Betty McCollum
Ranking Member
Subcommittee on Interior, Environment,
and Related Agencies
Committee on Appropriations
U.S. House and Representatives
1016 Longworth House Office Building
Washington, D.C. 20515

Dear Congresswoman McCollum:

This letter outlines the U.S. Department of Agriculture's Forest Service estimate of anticipated wildland fire suppression costs for fiscal year (FY) 2015, as required in the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010 (Public Law 111-88), as a part of the Title V - FLAME Act of 2009.

This estimate is pursuant to section 502(h)(3) of the Act, which requires the Secretary of Agriculture to submit an estimate of the anticipated wildfire suppression costs by the first week of July. The delay in the availability of certain data elements required for the development of the report presented challenges in preparing the report.

This forecast predicts, with 90 percent confidence, that fire suppression costs will be between \$869 million and \$1.529 billion in FY 2015, with a median forecast of \$1.199 billion. These estimates are based on the best climate and weather data currently available as well as the most effective analytical tools and models used to estimate fire suppression costs. The median forecast for the FY 2015 fire season is nearly \$200 million over the appropriated suppression and FLAME funds available and elucidates the need for a new funding strategy for wildfire suppression. If the median is met this fiscal year, the Forest Service will halt work and initiate transfers of funds from other budget line items. This is a destructive practice in many ways and I urge you to act quickly to pass fire suppression cap adjustment legislation so the largest and costliest fires do not erode the Forest Service's ability to support landscape and community resilience through forest restoration.

In compliance with section 435 of Public Law 111-88, this information will be posted to <http://www.fs.fed.us/aboutus/budget/congressional-directives.shtml> after 45 days.

A similar letter and a copy of the report are being sent to Senator Tom Udall, Senator Lisa Murkowski, Senator Ron Wyden, Senator John Barrasso, Senator Jon Tester, Congressman Tom McClintock, Congresswoman Niki Tsongas, Congressman Glenn Thompson, Congresswoman Michelle Lujan Grisham, and Congressman Ken Calvert.

Sincerely,

Thomas J. Vilsack
Secretary
